To: Joel Schetz  
From: Foyukh Gordin

Dear Joel,  
I did not hear from you during this week,  
and it is so strange...

Today I've shown to Steve Kull galley-sheets of a page-long interview in a scientific paper published by "Znanie"-society with professor Murray Turoff. I'll ~~by~~ this issue and direct it to you next week - together with some new details of an important follow-up of his visit here.

When he almost finished his lecture-dialogue with filmmakers in their headquarters - Steve Kull arrived, and he made another super-powerful impact; though it takes some days to collect evidences...

On Monday afternoon I'll make a presentation to a new leadership of Union of Filmmakers.

Among other results, I expect to connect them to Teleport (to prove why I am registered in your proposal as Union's member).

Also it is important to mention that I met with Werner Erhard and we spent 3 hours together. I hope he will support our global experiments on quantum-leap experiments in human consciousness. I found him very close, easy-going friend, and he w

amazed how I explained his concepts to  
an important and influential literary  
translator (who shared a dinner with us).

There are many other developments, and  
sometimes it looks like a real avalanche,  
but it is not yet. But I do believe  
that if our film Union will be con-  
nected via EIES to their counterparts  
in America, to develop and accomplish  
a project described in my script-proposal  
and Steve's letter to E. Velichov —  
a real Great Synthesis will happen,  
where all of us will actualise ourselves  
totally.

I'll send more detailed report  
next week.

My love to Diana, (I made  
quite a few copies of "Now" - drawings,  
it's about me, too).

Be in touch.

Josep

I am writing to Alan..
